Dear Member,

RE : PROPOSED PALM COURSE UPGRADING / CLOSURE

The Management Team has over the period of last year identified the key weaknesses of our Palm Course greens. We attempted to correct the problem by embarking on a series of maintenance programmes, which unfortunately did not produce the desired result. These weaknesses were exposed during the last Maybank Championship, where a prolonged period of continuous rainfall, with hardly any sunlight, has caused our greens to deteriorate very badly.

The main cause of the problem is poor drainage due to severe compaction at the root zone of the greens, which resulted in poor growth. The Team has explored various options and came to the conclusion that the best way forward is to replace the top 6 inches of the root zone with the desired sand profile and returf with healthy Tifeagle stolons.

The Board of Directors and Management has discussed the matter and the Board has approved the upgrading of the greens. Course Architect Mr. Ronald Fream will be assisting us on this.

This whole exercise will take approximately 5 months and will entail closure of the Palm Course, effective from 16th April 2018, with closure initially on the Palm Course Holes No. 10 to 18. Holes No. 1 to 9 are expected to be closed on 5th May 2018, to allow the upgrading works to continue. This disruption will be necessary and the Team has been instructed to keep it as short as possible.

We extend our humble apology to you and seek your co-operation and understanding to allow us to address the problem once and for all.

Thank you.

Yours sincerely,
SAUJANA GOLF & COUNTRY CLUB

S.A. NATHAN, AMP PJM
